Jerzy Wojewoda

*Scope of the journal*

Mechanics and Mechanical Engineering publishes original papers, notes, and invited review articles from all fields of theoretical and applied mechanics as well as mechanical engineering. In addition to the classical fields, such as Rigid Body Dynamics, Elasticity, Plasticity, Hydrodynamics and Gas Dynamics, it gives special attention to recently developed and boundary areas of mechanics. As a rule, only contributions written in English will be accepted.

**ISSN 1428–1511**

**e-ISSN 2354–0192**

Submission of manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if, and when the manuscript is accepted for publication, by authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without consent of the copyright holders.

## CONTENTS

<b>Anna Staszczyk, M. Debyser and Jacek Sawicki</b>	
Modelling and Simulation of Core–Shell Precipitates under Tensial Loading Using the Cellular Automata Method	443
<b>Aïcha Attemane, Allel Mokaddem, Bendoum Doumi, Miloud Boutaleb, Lahouari Temimi and Ahmed Boutaous</b>	
Study and Localization by the Nonlinear Acoustic Technique of the Damage to the Fiber-Matrix Interface of a Bio-composite	453
<b>M. N. D. Cherief, M. Benguediab, M. Elmequenni and A. Reffas</b>	
Study of Void Growth and Coalescence in HDPE Material: A Numerical Investigation Using Computational Voided Cells	467
<b>Melvin Adolphe, Joseph Clerval, Zbyszko Kirchof Robin Lacombe–Delpech and Bartłomiej Zagrodny</b>	
Center of Mass of Human’s Body Segments	485
<b>Yusry O. El-Dib</b>	
Time-Delay Two-Dimension Mathieu Equation in Synchrotron Dynamics	499
<b>Przemysław Łaziński</b>	
Evaluation of Traction Parameters of Small Electric Vehicle	513
<b>Paweł Wysmulski</b>	
Effect of Load Eccentricity on Buckling of Short Composite Profiles	523
<b>Abhishesh Mishra, Rajnish Singh and Saadat A. Rizvi</b>	
Fabrication and Vibration Analysis on Friction Stir Welding Fixture for Mass Production	531
<b>Rafał Grzejda</b>	
Impact of Nonlinearity of the Contact Layer Between Elements Joined in a Preloaded Bolted Flange Joint on Operational Forces in the Bolts	541

<b>Elias Randjbaran, Rizal Zahari, Dayang L. Majid, Mohamed T. H. Sultan and Norkhairunnisa Mazlan</b>	
Reasons of Adding Carbon Nanotubes into Composite Systems – Review Paper	549
<b>Jacek Cink and Andrzej Kosucki</b>	
Model of a Long Payload Suspended on Two Cooperating Winches and Its Preliminary Experimental Verification	569
<b>Djamila Benarbia and Mohamed Benguediab</b>	
Propagation of Cracks in Reinforced Concrete Beams Cracked and Repaired by Composite Materials	591
<b>Jerzy Tomczyk</b>	
Operating Energy Efficiency of Automatically Controlled Cranes	603
<b>Salim Boulahrouz, Yvan Avenas and A. Chehhat</b>	
CFD Simulation of Heat Transfer and Fluid Flow within Metallic Foam in Forced Convection Environment	611
<b>R. Selvamani</b>	
Modeling of Axisymmetric Waves in a Piezoelectric Circular Fiber Coated with Thin Film	637
<b>Partha Protim Das, Priyank Gupta, Ranjan Kumar Ghadai, Manickam Ramachandran and Kanak Kalita</b>	
Optimization of Turning Process Parameters by Taguchi–Based Six Sigma	649
<b>Mohamed I. A. Othman, Mohamed I. M. Hilal and Yassmin D. Elmaklizi</b>	
The Effect of Gravity and Diffusion on Micropolar Thermoelasticity with Temperature–Dependent Elastic Medium under G–N Theory	657
<b>Mohamed I. A. Othman, Sarhan Y. Atwa and Ahmed W.Elwan</b>	
Effect of Thermal Loading Due to Laser Pulse on 3-D Problem of Micropolar Thermoelastic Solid with Energy Dissipation	679
<b>Djillali Charef and Boualem Serier</b>	
Prediction of Crack Propagation Direction in the Cemented Total Hip Prosthesis	703

**Saadat A. Rizvi and S. P. Tewari**

Multi Objective Optimization by Application of Taguchi Based Grey Relational Analysis for GMA Welding of IS2062 Structural Steel 717

**Hugo M. Silva and Jose F. Meireles**

Structural Optimization of Internally Reinforced Beams Subjected to Uncoupled and Coupled Bending and Torsion Loadings for Industrial Applications 731

**K. Sherov, M. Sikhimbayev, A. Mazdubay, A. Sherov, A. Rakishev, M. Mussaev, B. Donenbayev and G. Bayzhabaginova**

The Reserch of the Tempereture Impact in Tool–Workpiece Contact on the Quality of the Cut at Thermofrictional Cutting 755

**Włodzimierz Gołbiowski and Przemysław Kubiak**

Analysis of Vehicle Dynamics Parameters for Electric Go-Kart (eKart) Design 763

**Note:**

We would like to inform that the article entitled:

Vibration Optimization of a Two-Link Flexible Manipulator with Optimal Input Torques,

contained in Number 2 of Volume 21 is wrote of the following authors:

– MILAD POUYA

Department of Mechanical Engineering, University Campus2, University of Guilan, Rasht, Iran, mpouya@msc.guilan.ac.ir

– POOYAN VAHIDI PASHAKI
