

CONTENTS – SPIS TREŚCI

Barbara Błażejczyk-Okolewska	
The influence of clearance on the motion of impact oscillator.....	151
Marian Jeż, Andrzej Stefański, Krzysztof Czołczyński	
Analysis and simulation of deterministic chaos in the dynamical model of aeroplane engine mounting.....	163
Marcin Kamiński	
Probabilistic effective heat conductivity of fiber composites.....	175
Katarzyna Kowal-Michalska, Zbigniew Kołakowski, Sławomir Kędziora	
Global and local inelastic buckling of thin-walled orthotropic columns by elastic asymptotic solutions.....	209
Przemysław Szumiński, Tomasz Kapitaniak	
Method of the analysis of variations in the dynamical system potential energy aiming at the stability analysis of characteristic points.....	233
Krzysztof Marynowski, Zbigniew Kołakowski	
Stability of axially moving paper web.....	247
